

Utah Tech Open House In February

(Continued From Page 1)

during the last several years on an educational level. Since mid-1969 we have been fully accredited by the Northwest Association of Secondary and High Schools — the same organization which accredits all high schools and colleges in this area. This means most of our credits are transferrable now to other collegiate institutions."

Open Door

"We have an open door policy of admissions. Most of our students are high school graduates, but a high school diploma is required to enter Utah Tech. A minimum age of 16 is required, but no student will be turned away because of limited previous formal education."

"In 1967 we were granted the right to award the Associate in Applied Science Degree by the State Board for Vocational Education. This is a two-year degree with considerable related academic and general education work in addition to the specialized trade or vocation the student has chosen. Or, if more concentrated, shorter training is desired, we offer courses of a year or less in which the student applies him or herself entirely to a chosen trade or vocation, without academic or general education work. For these concentrated courses we issue a certificate of proficiency instead of the associate degree."

16 Offerings

Utah Technical College at Provo offers training in 16 trades

ORIGINAL CAMPUS of Utah Technical College was in an abandoned Civilian Conservation Corps camp plus a couple

of old Utah County Fairground buildings one of which is to the extreme right.

THE MODERN CAMPUS is a far sight from the original one. The campus is now located at 1395 N. 150 E. in Provo. Open

houses will be held at this campus on Feb. 12 and 13. Tours will feature exhibits and the college's facilities.

Spring Catalog

Regular Spring Registration

February 1, 2, 3, 1971
